

ASIC, Ghana Conference

Share your work!

Submit a presentation for consideration

If you are interested in sharing your work with our conference attendees in one of the below sessions, please submit an abstract. We have several invited speakers that are ready to share their work along side yours. General abstract submissions will be open through May 31st. Submissions will be reviewed by experts on the Conference Planning Committees in early June and acceptance notifications will go out June 21st.

Initially, Podium Presenters and Poster Presenters will need to reserve all three conference days. The conference schedule will be determined and announced to presenters July 15th. Please submit your abstract the system below.

Of course, if you are interested in being a general attendee and learning from others, we welcome you to attend! [You can sign up here to stay informed.](#)

Current Program Sessions

The next installment of the Air Sensors International Community's International Connection Hub will be in Accra, Ghana October 17-19, 2023. Our Technical Program Committee is excited to welcome folks from across the continent to discuss small air quality sensors that can be used to improve monitoring throughout West Africa and beyond!

Community Based Participation

Making Sense of Sensor Data

Sensor Evaluation & Analysis

Data Collection, Analysis and Interpretation

Adapting LCS for Smart Air Quality Monitoring in African Cities

Data Utility & Action for Air Quality Management

Policy Development

Utilizing Communication Strategies to Increase Public Engagement on Air Pollution

Mobilizing Resources to Support Air Quality Monitoring Research

How can you help?

In order to ensure this conference reaches the right audiences and that this educational event accessible to the most people possible, we *could use YOUR help!*

Air Sensors International Community
International Connection Hub, Ghana

Become a Sponsor or Exhibitor!

Share your technology & platforms with an engaged set of concerned air quality managers and advocates as an exhibitor or session sponsor.

Contributions directly support travel scholarships for attendees

ASIC Session Sponsors can introduce a session in-person or virtually

Gold Level Exhibitors will have an opportunity to present to all conference participants.

SPONSOR TODAY!

October 17-19, 2023
Hybrid Event, Accra, Ghana

Email: sehall@ucdavis.edu

BECOME A SPONSOR: We are providing travel and attendance grants to many attendees participating from African countries. Due to this we are asking for generous financial support from ASIC partners to make the event successful and ensure air quality improvements can continue to spread across the globe. We invite you to be a conference sponsor by supporting the planning efforts or travel of participants.

Email Sandra Hall for details

BECOME AN OUTREACH PARTNER: We also need to ensure all groups of people working on improving air quality in various African regions are informed of the conference and enrichment opportunities. We welcome you to share with your partner organizations the graphics below in emails or on social media.

Additionally, if you are partnering with an organization, government department or community group that is aiming to improve air quality in their region, please share their email to be added to this mailing list! You can forward this message or directly share their information with us at ASIC.

Air Sensors International Community
Advancing science and engaging communities

The ASIC International Connection Hub's vision is to improve air quality by bringing together environmental managers, sensor developers, data analysts and air quality regulators, to discuss how to effectively use air quality sensors and the data produced to create massive changes in regulatory and personal actions to significantly influence air pollution levels.
