# The Vallejo Citizen Air Monitoring

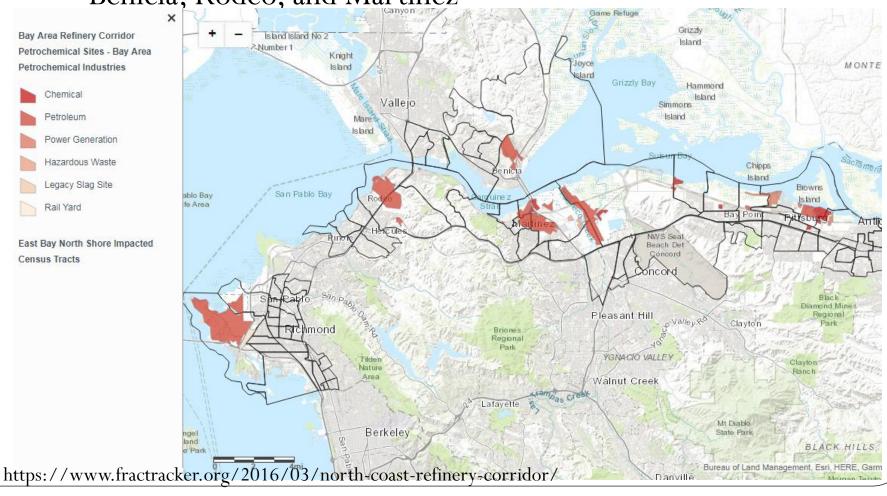

Building Awareness and Strengthening Advocacy for Environmental Justice

### Purposes of Citizen Air Monitoring

- Prevent industrial accidents
- Understand and improve air quality
- Learn about health effects of exposures
- Make air quality information more available to all

# Specific Concerns in Vallejo

• No refineries in Vallejo, but impacted by nearby refineries in Benicia, Rodeo, and Martinez

#### Specific Concerns in Vallejo

- No refineries in Vallejo, but impacted by nearby refineries in Benicia, Rodeo, and Martinez
- Dry docks for maintenance and repair of large sea vessels
- Unexplained releases (e.g. 9/20/16 odor event)

#### Coast Guard Locates Oil Sheens in San Pablo Bay After Odor Sickens Vallejo Residents

Coast Guard Locates Oil Sheens in San Pablo Bay After Odor Sickens Vallejo Residents - NBC Bay Area

### Questions raised by the 9/16 event

- How do you detect these events?
- How do you identify the source?
- Who monitors Vallejo air quality and how?
- How and what should be communicated to the public?

# **Solano County Health Burdens**Pollution Burden

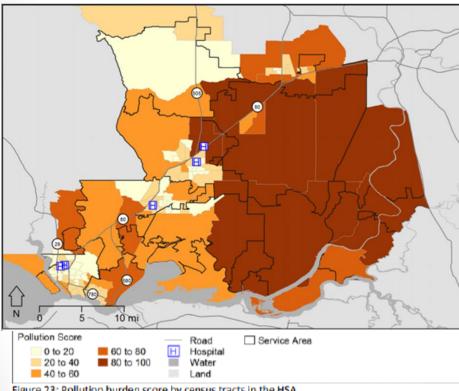

Figure 23: Pollution burden score by census tracts in the HSA

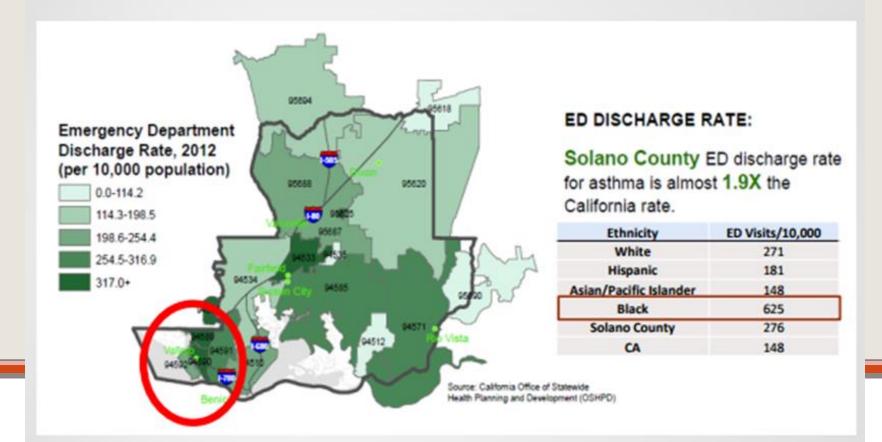

Source: California Office of Environmental Health Hazard Assessment, 2014

#### 13 Pollution factors:

- -Ozone
- -[PM2.5]
- -Diesel PM emissions
- -Pesticide use
- -Toxic releases
- -Traffic density
- -Drinking water
- -Cleanup sites
- -Impaired water bodies
- -Groundwater threats
- -Hazardous waste
- facilities & generators
- -Solid waste sites & facilities.

## Social Determinants of Health Housing Burden

#### Social Determinants of Health Housing Burden

ZIP Code	Percent Under 100% Federal Poverty Level	Percent Families with Children in Poverty	Percent Single Female Headed Households in Poverty	Percent Elderly in Poverty
North Vallejo 94589	17.7	21.6	34.5	2.74
South/ Central Vallejo 94590	25	29	41.6	3.53
East Vallejo 94591	12.5	16.6	35.3	1.5
Mare Island 94592	6	11.1	100	0
Solano County	13	15.4	34.2	1.8
State of CA	15.9	17.8	36.8	2.26

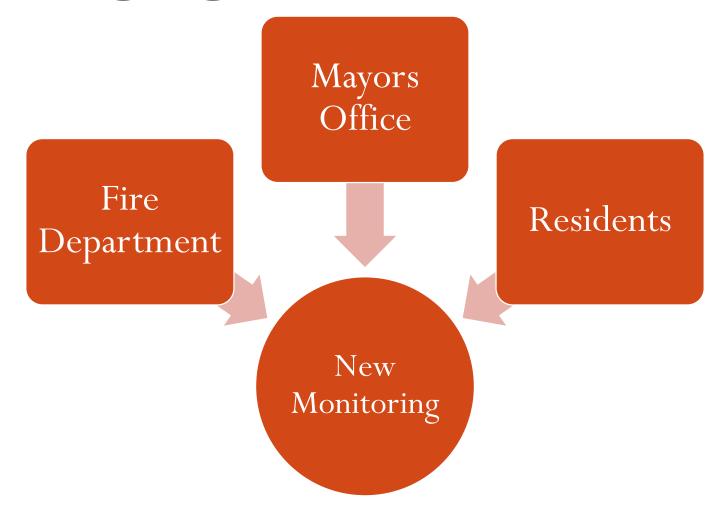

Community Health Needs Assessment; Solano County Community Health Assessment, 2016

<sup>&</sup>quot;There's kind of like a cycle of poverty because there's not a lot of resources, so people grow up and they don't have the resources so they end up being poor again."

## Social Determinants of Health Employment

Zip Code	Percent Unemployed	Median Income
Benicia - 94510	7%	\$88,930
North Vallejo - 94589*	13%	\$56,068
South/Central Vallejo - 94590*	17%	\$41,819
East Vallejo - 94591*	13%	\$73,509
Solano County	11%	\$67,177
CA State	9%	\$61,094

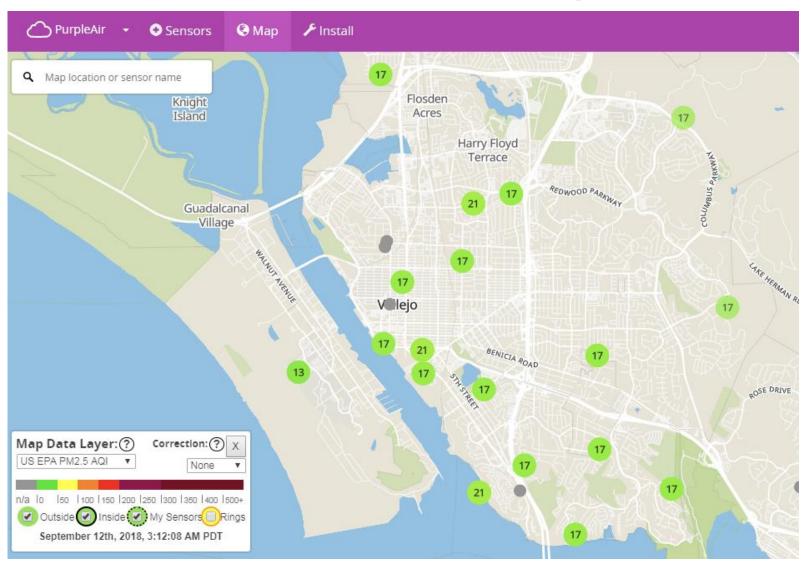

# Coming Together

# Vallejo Citizen Air Monitoring Network Goals

- More monitoring to better capture variation and hotspots
- Ability to collect data to help the city identify pollutants of concern and support health recommendations, if such an event occurred in the future. Need for rapid response
- Inform need and plan for other air monitoring.

#### Vallejo Citizen Air Monitoring Network

# Vallejo Citizen Air Monitoring Network Steps

- Network formation monthly meetings
- Network members in attendance at agency forums
- Community funded purchase and installation of 21 PM2.5 monitors.
- Training community members to use the monitors
- Secure outdoor locations (primarily residences)
- Reconnaissance tour with BAAQMD
- Ongoing communications with BAAQMD and development of grant support.

#### PM Levels is just a starting point

- The VCAMN data can identify when and where residents are safe outside
- To advocate for policy to further reduce PM sources.
- But... PM was not primary concern of residents.

### Data Analysis

- Monthly averages
- 24-hr average
- Highest 24-hr average

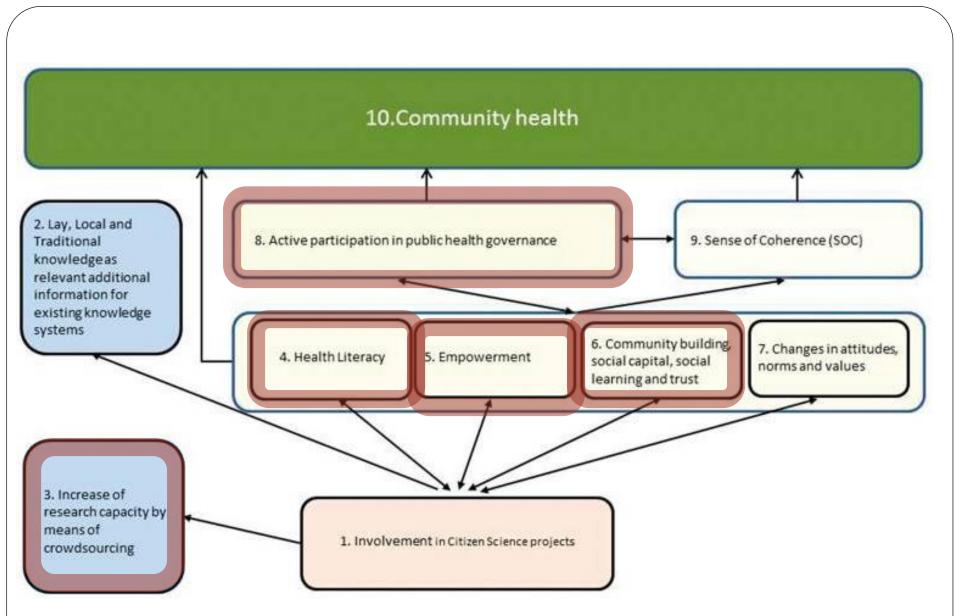

Figure 1 from Den Broeder, L., Devilee, J., Van Oers, H., Schuit, A. J., & Wagemakers, A. (2018). Citizen Science for public health. *Health Promotion International*, *33*(3), 505–514. http://doi.org/10.1093/heapro/daw086

#### **Beyond Particulates**

- VCAMN wants:
  - To be better able to respond to unplanned air quality events.
  - Learn more about sources and pollutants.
  - VOC: real-time and canister sampling

### **Growing Partnerships**

- Building infrastructure for data storage, access and interpretation.
- Community and agency partnership will build opportunities for creative solutions to reduce air pollution sources and reduce risk.
- Tiered approach

Tier 1
Low cost real-time monitoring

Tier 2 Responding to emergencies of concerns with VOC sampling

Tier 3 Academic partnerships to conduct targeted sampling and analysis
